## Joint EUFEPS - SITELF meeting

# ADVANCES IN PHARMACEUTICAL SCIENCES

**EUFEPS** and **SITELF** will come together for a joint **2026 Annual Meeting** in Naples, Italy, from May 27–29, 2026, further strengthening the collaboration between leading pharmaceutical scientists across Europe.

Continuing the tradition of the Pharmaceutical Sciences European meetings, the conference will offer an engaging **and high-quality scientific program** fostering the exchange of research, innovative ideas, and best practices in pharmaceutical sciences.

Under the theme **“Pharmaceutical Sciences in the Mediterranean Hub”**, the meeting will reflect Naples’ historical role as a crossroads of cultures and ideas, facilitating dialogue and collaboration across regions.

The scientific program will span a broad spectrum of topics, encompassing basic and applied research in drug targets, formulation strategies and enabling technologies for drug development, welcoming scientists from academia, industry, and regulatory bodies committed to advancing pharmaceutical sciences.

Participants will have the opportunity to present their work through poster and oral presentations, alongside keynote and invited speakers.

Highlights include the **European PhD Student Competition** and the presentation of prestigious awards such as the Best Poster Award, the Best Paper Award from the *European Journal of Pharmaceutical Sciences*, the Woman in Pharmaceutical Sciences Award, and the **EUFEPS Presidential Distinction**.

**Join the meeting in Naples** for three days of scientific excellence, collaboration, and Mediterranean warmth.
